YOUR RETIREMENT ELIGIBILITY QUESTIONS ANSWERED

To answer the question of when you can retire, you must first know which pension tier you are in, Tier A or Tier B.

If your permanent employment with the city began before December 31st, 2016, you are a Tier A member. If you became permanent on or after December 31st, 2016, you are a Tier B member. See the chart below to determine your retirement eligibility.

TIER A BENEFITS

Employed before December 31st, 2016

Service Retirement – 30 Years of Service

Rule of 78 – must be at least age 50. When your years of service and age equal 78, you can retire. Example Janie is 55 years old + with 23 years of service = 78

Health Benefit Supplement – an additional \$125 added to the calculated pension.

Maximum Retiree COLA - 5%

[CLICK HERE to view the Tier A Member Guide](#)

TIER B BENEFITS

Employed on or after December 31st 2016

Service Retirement – 40 Years of Service

Rule of 80 – reduced before age 65. When your years of service and age equal 80, you can retire. Example Jose is 65 years old + with 15 years of service = 80

Restricted Prior Service Credit (RPSC) – Pension service credit given for previous employment with another government entity. Once you submit your RPSC application and it's approved by ERF, this time is used for eligibility, not retirement calculation.

Maximum Retiree COLA - 3%

[CLICK HERE to view the Tier B Member Guide](#)

Each tier of benefits applies to those members exclusively and is not interchangeable. For example, Tier A members are not eligible for restricted prior service credit, and Tier B members do not qualify for the Health Benefit Supplement.

Refer to your respective member guide by clicking the link provided above for more information on your pension benefit. You can also contact ERF by calling 214-580-7700 or emailing retirement_fund@dallaserf.org.

SO YOU'RE VACCINATED, NOW WHAT?

The Center for Disease Control (CDC) has said that if you've been fully vaccinated, you can resume most activities that you did prior to the pandemic.

If you travel in the United States, you do not need to get tested before or after travel or self-quarantine after travel. You do NOT need to get tested before leaving the United States unless your destination requires it, but you still need to show a negative test result or documentation of recovery from COVID-19 before boarding an international flight to the United States.

You should still get tested 3-5 days after international travel, but you do NOT need to self-quarantine after arriving home. If you've been around someone who has COVID-19, you do not need to stay away from others or get tested unless you have symptoms. For the latest travel advisories, [CLICK HERE](#).

2021 SPRING TRAINING SCHEDULE

We will be offering five pre-retirement sessions this June. All sessions will be live and recorded to ensure all members have access anytime, anywhere. Sessions will be held in GoToWebinar from 11a - 1p with a live presentation and Q&A with speakers.

If you would like to stay updated on the next series of live sessions, visit www.dallaserf.org/active-employees and join our mailing list. ERF will also notify members on the website, www.dallaserf.org, and Facebook @DallasERF.

To register for upcoming sessions, click on the webinar title below. To access previously recorded sessions, [CLICK HERE](#).

SPRING 2021 WEBINARS

PRE-RETIREMENT WEBINARS

June 10th - Health Benefits
June 17th - Your Pension Benefit
June 24th - Taxes After Retirement

June 15th - Social Security & Your Pension
June 22nd - Fidelity Investments

SO YOU'RE VACCINATED, CONT.

continued from page 1

For now, if you've been fully vaccinated, you should continue to follow these guidelines. You will still need to follow guidance at your workplace and local businesses.

You will still be required to wear a mask on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and in U.S. transportation hubs such as airports and train stations.

Fully vaccinated international travelers arriving in the United States are still required to get tested three days before travel by air into the United States (or show documentation of recovery from COVID-19 in the past three months). They should still get tested 3-5 days after their trip.

You should still watch out for symptoms of COVID-19, especially if you've been around someone who is sick. If you have symptoms of COVID-19, you should get tested and stay home and away from others.

People who have a condition or are taking medications that weaken the immune system should talk to their healthcare provider to discuss their activities. They may need to keep taking all precautions to prevent COVID-19. To find a vaccination site near you, click here, <https://www.vaccines.gov/search/>.

MONTHLY SUMMER GARDENING TIPS

JUNE

Plant warm-season turf grasses, ground covers, tropical and warm season annuals such as begonia, hibiscus, periwinkle, salvia, zinnia, coleus, and caladiums.

Water in the early morning hours to minimize fungal problems and reduce evaporation. Spot treat fire ant mounds with ant bait or a mound drench. Begin to harvest vegetables and fruits as they ripen.

JULY

Plant sweet and hot peppers, okra and tomatoes (first half of month) for the fall harvest.

Prune out any dead or broken branches of woody ornamentals (trees and shrubs), but avoid major pruning during the heat of summer. Mow turf grasses every 5 to 7 days, maintain Bermuda at 1 to 1 ½ inches and St. Augustine at 2 ½ in full sun and 3 to 3 ½ in semi-shade.

AUGUST

Plant fall flowering perennials such as asters, Mexican mint marigold, Mexican bush sage (*salvia leucantha*), rain lilies, and garden chrysanthemums.

Plant snap beans, lima beans, broccoli, brussel sprouts, cabbage, collards, eggplant, kohlrabi, okra, onion, parsley, Irish potatoes, squash, and watermelon for the fall.
